Guidelines for Using Post Categories

When creating or assigning categories to any posts, follow the guidelines.

Relevance:

Choose categories that accurately represent the topic of the post. Avoid assigning posts to irrelevant categories.

Specificity:

Select the most specific category that accurately describes the content. Avoid using broad categories when a more targeted one is available.

Add Sliders for Home Page:

- After login in admin with credentials see a new menu item in the WordPress dashboard called "Sliders"
- Click on "Sliders" and then "Add New" to create a new slide.
- Give your slide a title and add content, such as images and links.
- Each slide will be a separate custom post.

Size of slider Image: 1576*605.

Add Top Stories:

- Go to your WordPress dashboard.
- Look for the menu item Posts in the left sidebar.
- Click on "Add New" to create a new news post.
- Fill in the title, content, featured image, and other relevant details.
